Kansas

The joint committee of the two houses in Congress have reported a bill for the admission of Kansas! Which it is supposed will pass. The new bill is a modification of the Senate and Montgomery bills, and provides for the submission of the constitution to the people of Kansas. If they fail to accept Le Compton, the State is not to be admitted until the population will entitle it to one member of congress.

The issue presented to the territory will be Le Compton or non admission, and we predict that it will accept the constitution at last after all the objections that have been made to it. ~The Easton Stan

Snow

This section was visited by a considerable snow squall on Sunday ~ Had the snow not melted as it fell it would have covered the ground to the depth of two or three inches. ~ Easton Stan 27th April

“Ma” said a little urchin, peeping from beneath the bed clothes, “Ma, I’m cold; where is the cover?” “Lie still, my dear” said the mother until your sister comes home from church she has got it on for Caroline.

For Governor
Hon John W. Ellis
Of Rowan County

Snow Storm

The "oldest inhabitants" don't recollect having seen such a fall of snow for the time of year since that of 47. Which fell on the 15th instead of the 20th. It commenced about 7 o'clock in the morning and snowed until about 5 in the afternoon when it stopped.

If the ground had not been so damp and warm the snow would have been 3 or four inches but it melted nearly as fast as it fell except where chips or something kept it off of the ground. It was all gone by next day at ten o'clock.

Fruit

A greater part of the fruit was killed by the snow of 25th of April and same night. Then came a big frost which swept everything tender such as beans and etc. The weather is unpleasant warm at present Friday evening.
